

TAX SUBCOMMITTEES (SUBCOM)

The SAICA National Tax Committee (NTC) is the official National Standards Advisory Committee regarding any and all tax and related matters with a potential impact on SAICA's members and the profession and also assists the SAICA ManCo in the fulfilment of its functions in respect of the SAICA Board approved strategy.

The NTC's primary role is to co-ordinate and enhance, subject to the public interest, the national and international interests of SAICA's members and the profession in the field of taxation. In performing its functions as set out in its [Terms of Reference](#), the NTC may create various subcommittees with appropriate experience in a specialist field of taxation or other area of specialisation not restricted to tax that may affect tax practitioners.

Unlike the NTC, NTC subcommittees are **open to all subject matter specialists** from any profession or designation, however preference is given to SAICA members. In this regard, SAICA is calling for applications to the **Exchange Control Sub-committee**, which is a technical subcommittee of the NTC. The NTC shall review applications for the [Exchange Control Sub-committee](#) and approve the final candidate to become a member of the Exchange Control Sub-committee.
