**Dear Stakeholder,**

**BANKING DETAILS VERIFICATION**

Taxpayers can now submit banking details supporting documents electronically on eFiling or the SARS Website should the need arise.

They need to provide an image of themselves holding their proof of identity, as well as a written note containing the case number and the date on which the documents are uploaded to SARS. It is important that the taxpayer's face, proof of identity and the note are clearly visible in the same picture

This image should be accompanied by the necessary supporting documents. For a list of required supporting documents for changing banking details as well as an example, [click here](#).

You are kindly requested to communicate the enhancements with your members.

Yours Sincerely,

**Mark Kingon**

A handwritten signature in black ink, appearing to read 'Mark Kingon', is written over a horizontal line.
